***Statement by the General Peoples' Committee
for Foreign Liaisons and International Cooperation
(Libyan Ministry of Foreign Affairs)***

***on the Massacre Committed by the Zionist Entity Forces
Against the Freedom Flotilla
to End the Unjust Blockade of Gaza***

The Great Jamahiriya strongly condemns the outrageous massacre committed by the Israeli forces yesterday in international waters against innocents of solidarity with the people of Gaza, and calls on the International Community including UN General Assembly, Security Council and the Human Rights Council to bear the responsibility to halt the perpetual acts of piracy, killings and destruction which this Occupying Entity used to commit against disarmed innocents in Palestine, Lebanon, Egypt, Jordan, and elsewhere. The Great Jamahiriya also urges the immediate lifting of the unjust Israel's blockade on the people of Gaza, and requests Arab States to take a decisive position against this atrocious violation of rights and dignity of the Arab Nation.

The Zionist gangs committed such an inhumane and barbarian attack which humiliates human dignity. The attack, against innocents devoted to solidarity with their brothers in humanity who suffer from occupation, hunger, diseases and lack of their basic human rights to have a decent life, was perpetrated by taking advantage of the silence towards the barbarian acts of violence from the Massacre of Deir Yassin till the second Massacre of Qana...

The General Peoples' Committee for Foreign Liaisons and International Cooperation (Libyan Ministry of Foreign Affairs) condemns this massacre, and calls on the International Community to take immediate measures against those who are responsible of this criminal act and to trial them as war criminals. In the meantime, the Great Jamahiriya expresses its sincere condolences to the governments, families and comrades of these martyrs who lost their lives in this terrible crime.
