Submission:

Hatred for Israel and the Jewish people takes priority over improving the welfare of their own people. That's recipe for protraction of conflict instead of peace.

" While Israel is working to improve the Palestinian Authority's (PA) economy, a move perceived by PA officials as one designed to promote "economic peace" as a means of renewing the diplomatic process, the Palestinian Authority's prime minister says he seeks to break away from Israel and its economy"

"It is widely believed among PA economists and officials that a unilateral cancellation of the agreements with Israel will bring disaster to the PA's economy."
